

ZOOLOGY XII

10 Year Questions Distribution

According to the Chapters.

This Distribution is carried out According to
NEW BOOK OF BIOLOGY.

COMPILED BY Dr. Abdul Raheem

0311-3136863

QUESTIONS	YEARS
Chapter: 15 HOMEOSTASIS	
Section B	
2(a) iv) Why star fish and jelly fish do not need Osmoregulation? 2(a) vii) How do Osmoregulation take place in terrestrial animals?	2025
2. (a)(i) How do aquatic osmoregulator animals overcome the osmoregulatory problems? 2. (b)(xi) Write the names, causes and symptoms of disorders of Urinary Tract.	2024
2(a) iv) How does osmoregulation take place in fresh water fish? 2(b) xi) Draw the Ornithine Cycle.	2023
2. (a) (iii) How are waste products removed from the body in case of renal failure? 2. (b) (xi) How do osmoregulation take place in terrestrial animals? 2. ix) Name various aspects of homeostasis	2022
2. i) Define Homeostasis. 2. vi) Why hydrophytes do not have cuticle on stem and leaves? 2. b)(ix) Write the process of osmoregulation in terrestrial animal.	2021
2.a) (i) How does Osmoregulation take place in Trout fish? 2. (i) Name any two aspects of Homeostasis. 2.b) (xii) Write a note on Lithotripsy.	2019
2.a) (ix) How does Osmoregulation take place in Marine Bony Fish?	2018

2.b) (vi) Write note on two different types of Nephrons related to adaptation in kidney.	
2.a) (ii) How does fresh water fish regulate Osmoregulation?	2017
2. (iii) Name various aspects of homeostasis	
(ii) Explain osmoregulation in fresh water fish.	2016
(xiv) Define Dialysis. Write any one methods of its.	
(iii) Describe osmoregulation in Terrestrial animals.	2015
(xiv) Explain the role of Brain in the regulation of the body temperature.	

Section C

3. Define Thermoregulation. Explain its mechanism in human during hot and cold environment.	2025
5. What is Nephron? Describe the functions of nephron with the help of diagram.	2024
3.(a) Describe regulatory functions of Kidneys.	2022
5. (a) State Physiological mechanisms of thermoregulation in cold temperature.	2021
5. (b) Write the role of Brain in thermoregulation.	
3. Explain the Regulatory functions of the human Kidney and draw a labelled diagram of nephron.	2019
3. Explain the regulatory functions of human kidney and draw a labelled diagram of nephron.	2017

Chapter: 16 SUPPORT AND MOVEMENT

Section B

2(a) i) Why calcium is essential for cross bridge formation? 2(a) iii) Why cardiac muscles not fatigue? 2(b) ix) Differentiate bone and cartilage, 2(b) x) Write a note on Sprain OR Spondylosis. 2(b) xii) Define joints. Name various types of joints.	2025
2. (a)(vi) Why are skeletal muscles get fatigued while cardiac muscles do not? 2. (b)(xiii) Write any two skeletal disorder of man.	2024
2(a) iii) Why is muscle fatigue common in sportsmen? 2(b) ix) Differentiate between skeletal muscles and smooth muscles.	2023
2. (iv) Why does abnormal muscle contraction occur in sportsmen?	2022
2. b)(x) State the functions of skeleton, 2. b)(ii) Differentiate between skeletal muscles and cardiac	2021

MODEL PAPERS XII (S) 388 ZOOLOGY

muscles	2019
2.a) (ii) Why do Skeletal muscles show fatigue after heavy exercise?	
2.b) (xi) Write a note on Smooth muscles or Cardiac muscles.	
2.b) (xvi) What are the three main causes of Skeletal deformities? Give one example of each with symptoms.	
2.a) (iv) What is the cause of Muscle Fatigue?	2018
2.b) (xii) Write four differences between Bone and Cartilage.	
2.a) (iv) What is the reason of abnormal muscle contraction in sportsmen?	2017
2.b) (x) Differentiate between Skeletal muscles and Smooth muscles.	
(v) Write a note on Antagonistic muscles.	2016
(ix) Write a note on Abnormal muscular contraction.	
(vii) Write four functions of skeleton.	2015
(xi) Name the mark part of the following diagram.	
	
(xv) What is the function of Pelvic girdle? Name its three important bones.	
Section C	
3. —OR— Explain sliding filament model of muscle contraction and also describe cross bridge cycle with the help of labelled diagram.	2025
3. Define Skeletal Muscles. Describe the mechanisms of contraction of skeletal muscles with the help of diagram.	2024
5. Explain the Locomotion in any three of the following animals. Draw neat and labelled diagrams.	2023
a) Jelly fish b) Earthworm c) Snail d) Star fish	
4. Describe the mechanism of contraction in Skeletal muscle fiber.	2019
5. Describe Locomotion in Jellyfish, starfish and Earthworm.	2018
[3 OR] Define Skeletal muscles and describe the structure of Skeletal muscle fibre. Draw neat and labelled diagram of Skeletal fiber.	2017
4. Describe the structure of Striated muscles and explain their working mechanism with diagrams.	2016

MODEL PAPERS XII (S) 389 ZOOLOGY

Chapter: 17	NERVOUS COORDINATION
Section B	
2(a) v) Why degenerative disorder of CNS is not curable?	2025
2. (a)(ii) Why receptors are called Transducers?	2024
2. (b)(xii) Write a note on autonomic nervous system.	
2. (a) (viii) How does Parkinson's disease different from Huntington's disease?	2022
2. a) ii) How sympathetic nervous system prepare the body for Fight or Flight response?	2021
2. b) xi) Write note on Reflex action.	
2.a) (viii) Why is Nervous co-ordination called the quickest way of communication within the body?	2019
2.b) (xiii) Define Receptors. Classify them with examples on the basis of stimuli.	
2.a) (viii) How is Parkinson's disease different from Huntington's disease? Write its treatment.	2018
2.b) (x) Write Four difference between Nervous and Chemical co-ordination.	
2.a) (vii) Why is Synapse termed as motor end plate?	2017
2.b) (xi) In which disease of the nervous system do seizures recur? State the Patient's condition in it.	
(iii) Write a note on Parkinson's disease.	2016
(iv) Differentiate between diffused nervous system and centralized nervous system.	
(vii) Write a note on Reflex action.	
(xii) Differentiate between Parasympathetic and Sympathic Nervous system.	
(xvi) Define Receptors. Name different type of receptors.	
(2.1) Write about the different types of Neurons.	2015
(ix) Write four Differences between Nervous coordination and Chemical coordination.	
(xvi) Describe the functions of Encapsulated receptors of the Skin.	
Section C	
4. Explain the structure and function of different parts of Human Brain. (diagram is not required)	2025
4. Define Nerve impulse. Explain resting membrane potential, action potential, depolarization, repolarization and synapse.	2024
3 (OR) Describe the structure and functions of different parts of human brain with neat and labelled diagram.	2023

MODEL PAPERS XII (S) 390 ZOOLOGY

5.(a) Write nerve impulse under following heading: with the help of diagrams: • RMP • Propagation of Nerve Impulse	2022
3. (a) Write the structure and function of Human Brain (diagram is not required).	2021
[3 OR] Describe the structure and functions of different parts of the human brain. (Diagram is not required.)	2019
4. Describe the structures and functions of different part of human brain. (Diagram of brain is not required).	2017
4. Describe impulse under the following headings: a) AMP b) RMP c) SYNAPSE	2015

Chapter: 18	CHEMICAL COORDINATION
Section B	
2(a) (i) Which hormones are released from adrenal medulla? Why they called emergency hormones?	2025
2(a) (viii) Why hormones secreted from adrenal cortex are called "Corticosteroids"?	
2(b) (xiii) Write any four functions of Hypothalamus.	
2. (a)(vii) Why does the pancreas function as both kinds of endocrine and exocrine gland?	2024
2. (b)(xiv) Name any four releasing and inhibiting hormones of Hypothalamus.	
2(a) (v) How does blood sugar level is controlled by pancreas?	2023
2. (a) (ii) Why Hormones secreted from 'adrenal medulla' are called 'emergency hormones'?	2022
2. (b) (xii) Write two disorders over, production of Growth Hormones (STH).	
2.a) (ix) How does pancreas regulate the amount of blood sugar?	2019
2.a) (ii) Which hormone is released from Adrenal Medulla and Why is it called Emergency hormone?	2018
2.b) (x) Write Four difference between Nervous and Chemical co-ordination.	
(iv) Differentiate between diffused nervous system and centralized nervous system.	2016
(vi) Write four Differences between Nervous coordination and Chemical coordination.	2015
Section C	

MODEL PAPERS XII (S) 391 ZOOLOGY

5. Define pituitary glands. Describe their lobes and secreted hormones.	2025
3. (b) Write the abnormal functions of Pituitary gland.	2021
[3. OR] Define Endocrine glands. Describe Pituitary gland as Master gland.	2015

Chapter: 19	ANIMAL BEHAVIOUR
Section B	
2. (a)(viii) Why three spined stickleback fish shows aggressive behavior?	2024
2. (b)(xv) What is taxis? Give their types with examples.	

Chapter: 20	REPRODUCTION
Section B	
2(a) (vi) Why menstruation cease during pregnancy?	2025
2(b) (xi) Enlist the causes of infertility in male.	
2(b) (xiv) State the causes and symptoms of Gonorrhea.	
2(b) (xv) Describe miscarriage.	
2. (a)(iii) Why inner uterus wall thickens during secretory phase?	2024
2. (a)(iv) Why testes descend down in human male foetus before birth?	
2. (b)(ix) Differentiate miscarriage and abortion.	
2. (b) (ix) Write note on Gonorrhea or Syphilis.	2022
2. a) (v) Write two reasons which disturb menstrual cycle.	2021
2.b) (xvii) Draw labelled diagrams of different stages of Spermatogenesis or Oogenesis.	2019
2.a) (i) Why do Monozygotic twins have the same sex?	2018
2.b) (xiv) Write note o Gonorrhoea OR Syphilis.	
2.b) (xvii) Label the diagram given Below:	
2.1) Write a note on Spermatogenesis or Oogenesis.	2016

(xiii) Write a note on Oestrous cycle.	2015
Section C	
4. ---OR--- Define menstruation. Describe its various phases and changes.	2025
3. Define Menstruation. Describe its various phases and its changes taking place in each phase with diagram.	2023
4. (a) Define Menstrual cycle and write its changes taking place in each phase.	2021
4. (b) Drawn labelled diagram of female reproductive organs	
[5 OR] Describe with the help of labelled diagram the human female reproductive system.	2019
3. Define Menstruation. Describe its various phases and the changes taking place in each phase with diagrams.	2018
[4 OR] Explain the process of Gametogenesis in human and draw a labelled diagram of male and female reproductive system.	2017
3. Define menstrual cycle. Describe its various phases and the changes occurring in each phase.	2015

Chapter: 21	DEVELOPMENT AND AGING	
Section B		
2. (a)(v) Why monozygotic twins having same sex?		2024
2. (b)(x) Write note on Rubella or abnormal Neural Tube Defects (NTDs),		
2(b) x) Write a note on Aging.		2023
2.a) (iii) How does Abnormal development take place in man?		2019
2.b) (xiii) Define Aging. Give its causes.		2018
(viii) Define Ageing and list its causes.		2016
Section C
